## NOTE :

- INVESTMENT IS IN THOUSAND OF CRORE
- EMPLOYMENT IS IN THOUSANDS

## SUGGESTIONS :

- **Investment Incentives** : such as tax breaks or grants for research and development activities.
- **Education and Training**: To ensure that the workforce has the necessary skills for available job opportunities.
- **Support Small Businesses**: Small and medium-sized enterprises (SMEs) are often major employers. Providing access to capital, mentoring, and reducing regulatory burdens for SMEs can boost employment.
- **Fiscal and Monetary Policies**: Carefully manage interest rates, inflation, and government spending to create a favorable economic environment.
- **Public-Private Partnerships**: Collaborate with private sector entities to identify investment opportunities and job creation initiatives.
- **Sustainability**: They can attract investments and support long-term growth.

# SUGGESTION: Encourage the Adoption of Electric Vehicles

**Global EV Market Growth**

**Battery Technology Advancements**

**Charging Infrastructure Expansion**

**Autonomous and Connected EVs**

**Diversification of EV Models**

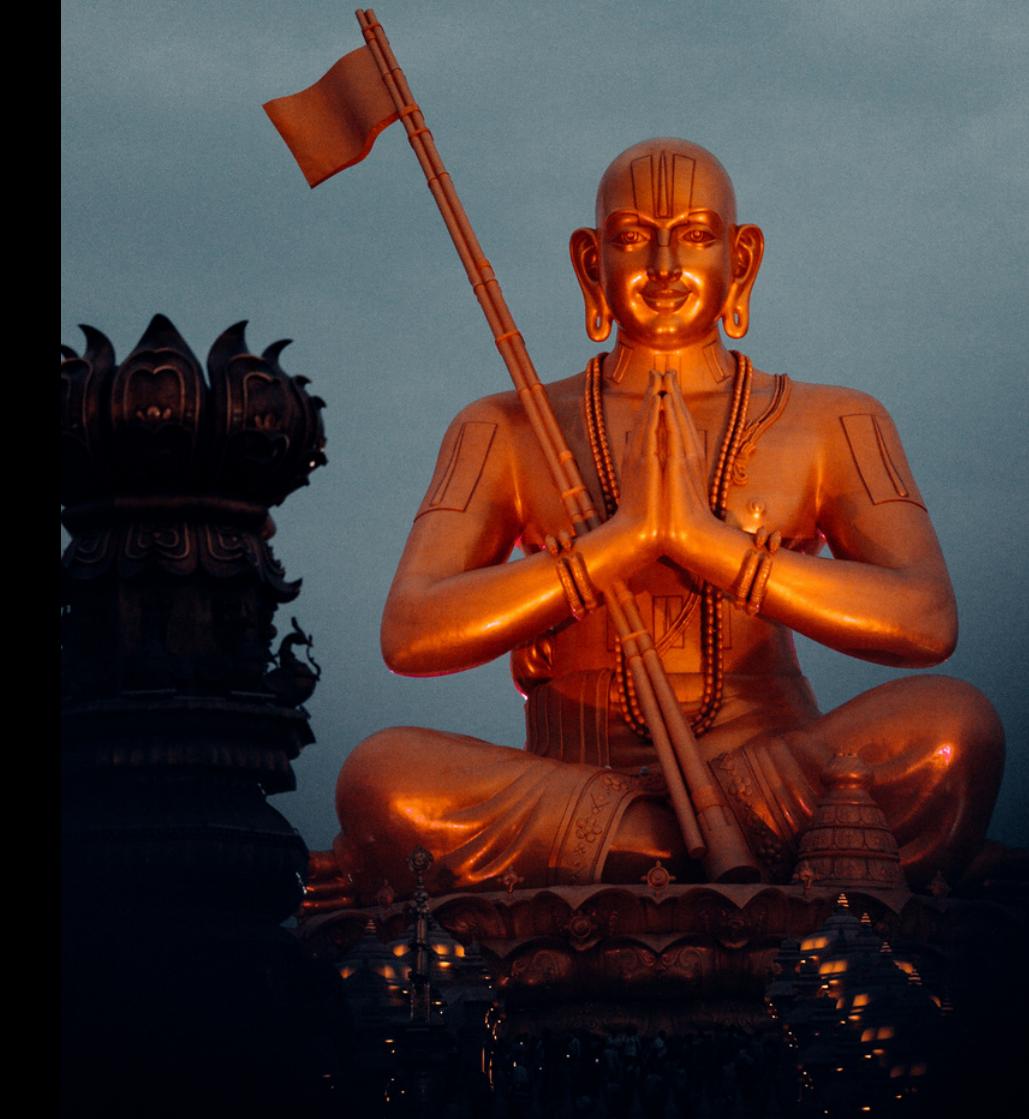

**Environmental Benefits**

## **Challenges Ahead:**

Despite growth, challenges such as range anxiety, charging infrastructure gaps, and battery recycling remained to be addressed.

# STEPS TO BOOST ECONOMY

- 1. Promote Industrialization:** Encourage the growth of industries in sectors such as information technology (IT), pharmaceuticals, manufacturing, and agriculture. Provide incentives and infrastructure to attract companies to set up operations in the state.
- 2. Invest in Infrastructure:** Develop and upgrade infrastructure like roads, ports, airports, and logistics networks. Better infrastructure can attract businesses, improve connectivity, and reduce transportation costs.
- 3. Agricultural Modernization:** Enhance agricultural productivity through modern farming techniques, improved irrigation systems, and diversification of crops. Promote value addition in agriculture to increase farmers' incomes.
- 4. Education and Skill Development:** Invest in education and vocational training to develop a skilled workforce. A well-trained workforce can attract more businesses and support entrepreneurship.
- 5. Startup Ecosystem:** Foster a vibrant startup ecosystem by providing incubators, accelerators, and funding opportunities for innovative entrepreneurs. This can lead to the creation of new jobs and industries.

## STEPS TO BOOST ECONOMY

- 1. Tourism Development:** Develop tourism infrastructure and promote tourism to showcase Telangana's rich cultural heritage, historical sites, and natural beauty. Tourism can generate revenue and employment opportunities.
- 2. Ease of Doing Business:** Simplify regulatory processes and reduce bureaucratic hurdles to make it easier for businesses to start and operate in the state.
- 3. Invest in Research and Development:** Support research and development initiatives in universities and private sectors to encourage innovation and technology-driven growth.
- 4. Resource Management:** Ensure efficient and sustainable management of natural resources, including water, to support agriculture and industrial activities.
- 5. Public-Private Partnerships (PPP):** Collaborate with the private sector for infrastructure development, service delivery, and investment in various sectors.
- 6. Export Promotion:** Encourage businesses to explore international markets and promote exports to diversify revenue sources.

# STEPS TO BOOST ECONOMY

- 1. Social Welfare Programs:** Implement targeted social welfare programs to uplift disadvantaged communities, reduce poverty, and improve overall living standards.
- 2. Environmental Sustainability:** Balance economic growth with environmental conservation by enforcing environmental regulations and promoting sustainable practices.
- 3. Infrastructure for Connectivity:** Develop digital infrastructure and high-speed internet connectivity to support the IT and e-commerce sectors.
- 4. Fiscal Discipline:** Maintain fiscal discipline and prudent financial management to ensure sustainability and avoid excessive debt.
- 5. Good Governance:** Ensure transparency, accountability, and effective governance to build trust among businesses and citizens.
- 6. Quality Healthcare:** Invest in healthcare infrastructure to improve the well-being of the population and reduce the economic burden of health issues.
